 (ORANGE COUNTY)**

Nonfarm jobs gained 10,400 over the month and 24,100 over the year

The unemployment rate in Orange County was 4.2 percent in February 2024, unchanged from a revised 4.2 percent in January 2024, and above the year-ago estimate of 3.4 percent. This compares with an unadjusted unemployment rate of 5.6 percent for California and 4.2 percent for the nation during the same period.

Between January 2024 and February 2024, total nonfarm employment increased from 1,678,400 to 1,688,800, a gain of 10,400 jobs.

- Professional and business services added 3,400 jobs, the most of any sector. Administrative and support and waste management and remediation services (up 1,900 jobs) provided the majority of the employment gain. Professional, scientific, and technical services added 1,300 jobs and management of companies and enterprises increased by 200 jobs.
- Employment increased in five other sectors: private education and health services (up 3,300 jobs), government (up 2,500 jobs), leisure and hospitality (up 2,300 jobs), other services (up 400 jobs), and financial activities (up 200 jobs).
- Trade, transportation, and utilities decreased the most (down 1,300 jobs). Employment declines were concentrated in retail trade (down 1,700 jobs), and transportation, warehousing, and utilities (down 100 jobs). The losses were offset by a gain of 500 jobs in wholesale trade.
- Construction declined by 400 jobs and three sectors remained unchanged: mining and logging, manufacturing, and information.

Between February 2023 and February 2024, total nonfarm employment increased by 24,100 jobs, or 1.4 percent.

- Staffing levels increased in six sectors. Private education and health services gained the most (up 15,300 jobs). Eighty-four percent of the gain was in health care and social assistance (up 12,900 jobs). Private educational services expanded by 2,400 jobs.
- The remaining five sectors with year-over payroll increases contributed an additional 12,500 jobs, accounting for slightly over half of the total nonfarm increase over the year.
- Four industry sectors contracted over the year: information (down 1,500), manufacturing (down 1,000 jobs), financial activities (down 1,000 jobs), and professional and business services (down 200 jobs). Mining and logging had no employment change.
